

Minnesota State Fair Health Regulations: Bovine Tuberculosis

Updated 05/05/2011

Please note these regulations will be subject to change in accordance with any updated regulations instituted by the Minnesota Board of Animal Health.

For maps of the Accredited-Free, Modified Accredited Advanced and Management zones, go to www.bah.state.mn.us/

Cattle from Minnesota: Accredited-Free zone

- No individual TB tests required

Cattle from Minnesota: Modified Accredited Advanced (MAA) zone

- Individual TB tests. Cattle two (2) months of age or older must have a negative bovine tuberculosis test within 60 days prior to arrival at the fairgrounds
- Accredited tuberculosis free herd. Cattle originating from an accredited tuberculosis free herd are exempt from the individual TB test, If the animal is accompanied by a certificate of veterinary inspection that include the TB-free herd certification number of the herd of origin and the date on which the herd of origin was last tested for tuberculosis is within the last year
- All cattle that are moved from the MAA zone to exhibition must be accompanied by animal movement certificate approved by the Board of Animal Health

Cattle from Minnesota: Management zone (located within the MAA zone)

- Individual TB tests. Cattle two (2) months of age or older must have a negative bovine tuberculosis test within 60 days prior to arrival at the fairgrounds
- Whole herd test. All cattle originating from the Management zone must originate from a herd that has had a whole-herd tuberculosis test within 12 months of exhibition
- All cattle from the Management zone to the fair must be accompanied by an animal movement certificate approved by the Board

Cattle from outside Minnesota

- Must meet the Minnesota Importation requirements. See information at www.bah.state.mn.us or call the Minnesota Board of Animal Health at 651-296-2942
- Cattle from states other than Minnesota must meet the importation requirements of their state of origin if they are returning
- Certificate of Veterinary Inspection must list the Minnesota State Fair as consignee. Exhibitors should bring duplicates of their health papers along with the originals

Goats from Minnesota: Accredited-Free zone

- No individual TB tests required

Goats from Minnesota: Modified Accredited Advanced (MAA) zone

- No certificate of veterinary inspection required

Goats from Minnesota: Management zone (located within the MAA zone)

- Individual TB tests. Goats must have a negative tuberculosis test within 60 days prior to arrival at the fairgrounds
- Whole herd test. All goats originating from the Management zone must originate from a herd that has had a whole-herd tuberculosis test within 12 months of exhibition
- All goats from the Management zone to the fair must be accompanied by an animal movement certificate approved by the Board

Goats from outside Minnesota

- Must meet the Minnesota Importation requirements. See information at www.bah.state.mn.us or call the Minnesota Board of Animal Health at 651-296-2942
- Goats from states other than Minnesota must meet the importation requirements of their state of origin if they are returning
- Certificate of Veterinary Inspection must list the Minnesota State Fair as consignee. Exhibitors should bring duplicates of their health papers along with the originals
