**CHAPTER THREE - COMPETITIVE EXHIBITS****3.01 Competitive exhibition times**

Times for the setup of State Fair competitive exhibits, the dismantling and removal of exhibits and the hours of public viewing will be set annually by the secretary or delegate and will be stated in individual department premium books.

**3.02 Responsibility for competitive exhibits**

The Society will use diligence to protect livestock and articles entered for exhibition, after their arrival and placement, but under no circumstances will it be responsible for any loss, injury or damage done to or caused by any animal or article on exhibition. It is the responsibility of the competitive exhibitor to obtain appropriate insurance for any damages due to or caused by the exhibit and to indemnify and hold the Society harmless against any claim arising out of incidents involving the exhibit. Removal or pickup of exhibits at established times as stated in individual department premium books, entry blanks or entry receipts, shall be the responsibility of the competitive exhibitor. The Society shall not be responsible for any exhibit not removed or picked up at established time and the secretary or delegate will dispose of all exhibits not removed or picked up within one year of such established time.

**3.03 Board of Animal Health**

The exhibition of livestock on the State Fairgrounds shall be under the supervision of the Minnesota Board of Animal Health and its applicable rules and regulations will be complied with in full. Health requirements for individual departments will be set forth in their respective premium books.

**3.04 General competitive entry requirements**

Competitive exhibitors must file proper entry blanks with any applicable fees prior to the designated closing date for entries. The Society reserves the right to refuse entries or prohibit the exhibition of animals or articles entered if the showing of such animals or articles is contrary to law, or violative of the Society's interest in providing for the health, safety and protection of its patrons. Exhibits entered in the wrong lot or category may be transferred prior to judging at the discretion of the department superintendent to the proper lot or category of competition. Deception of any type by an exhibitor, as determined by the department superintendent will ban the exhibitor from any further competition and result in the forfeiture of all premiums. Mechanical or artistic articles must be entered in the name of the artist, inventor, manufacturer or maker. No Society employee or department superintendent, or member of their family, shall be permitted, directly or indirectly, to make a competitive entry in any department over which that person has supervisory responsibility or in which that person is employed. No society officer or member of the Board of Managers, or member of their family, shall be permitted to make a competitive entry of any type in any department.

**3.05 Animal competitive entry requirements**

When animals are entered for State Fair competition by an entity other than an individual, that entity (whether a corporation, partnership, breeding establishment or other) must have been in existence as of the closing date of entries. Appropriate documentation showing the status of the entity must be available for inspection by the department superintendent. All animals entered under a breed classification must be recorded in a breeding association recognized as representative of the particular breed. The competitive exhibitor must produce a certificate of registry at the request of the department superintendent. All animals shown must be owned by the competitive exhibitor from the time of making entry, except as otherwise provided in special rules of the department.

**3.06 Judges**

Competent and qualified persons will be employed as judges by the Society to evaluate all competitive exhibits. Judges shall be responsible for reading and understanding the general rules and all special rules applicable to the department or class in which they are to serve. No person who is a competitive exhibitor may act as judge in a class in which they are competing.

**3.07 Interference with judging**

Judges shall report to the department superintendent any competitive exhibitor who in any way, whether in person or by agent or employee, interferes with them or shows any disrespect to them during the judging. The department superintendent may exclude any such competitive exhibitor from further competition. The secretary may withhold from such competitive exhibitor any or all premiums that have been awarded and may also exclude such competitive exhibitor from further competition at the State Fair.

**3.08 Award books**

Judges and persons acting as clerks to the judges must use special care to record the proper names in the award books after awards have been made. The judge, competitive department superintendent in charge and clerk recording the awards of the department must sign the award book at the close of each class immediately after all awards in such class have been made.

**3.09 Qualification of entries**

If there is any question as to the regularity of an entry or the right of any animal or article to compete in any lot or category, the judge or judges shall report same to the competitive department superintendent in charge for adjustment. Judges shall place a reserve award in each lot. Should any animal or article awarded a prize be disqualified, the animal or article awarded the next lower prize shall graduate into the next higher position, if in the opinion of the judge, it is worthy of such prize. Judges must not award a prize to an unworthy exhibit. No premium or distinction of any kind shall be given to any animal or article that is not deserving.

**3.10 Finality of decisions**

In judging livestock, the decision of the official State Fair veterinarian and judge as to soundness shall be final. The decision of the judge shall be final in all cases, except when mistake, fraud, misrepresentation or collusion, not known at the time of the award, is discovered. In such cases, the secretary shall take appropriate action or refer the matter to the board of managers.

**3.11 Interpretation of rules**

A faithful observance of all rules governing the exhibit will be required, and when in doubt as to the application or meaning of a rule, the competitive department superintendent in charge shall interpret such a rule. This interpretation when requested by either a competitive exhibitor or judge must be reduced to writing and returned to the secretary or delegate with the award books.

**3.12 Protests**

A protest from the decision of a judge will only be accepted from a competitive exhibitor named in the official judge's sheet for competition in the lot or class under protest, and must be filed with the secretary within five hours after the award has been made. An award is deemed to have been made when the notation of the decision of the judge is entered into the department award book. All protests must be made in writing and must be accompanied by a deposit of one hundred dollars (\$100). The protest must state plainly and specifically the facts upon which the complaint or appeal is based. The right to appeal will lie only when it is charged that the award has been made in violation of the rules governing the exhibit, or when it is charged that the decision of the judge has been influenced or interfered with by another person. No protest or appeal based upon the statement that the judge or judges are incompetent or have over-looked an animal or article will be considered. The one hundred dollar deposit will be returned only if the protest or appeal is upheld. In protest and appeal instances where rules established by a breed association or other competitive organization with which the Society has an agreement differ from this rule, rules of the association or organization shall govern.

**3.13 Late showing of exhibit**

No animal or exhibit will be judged or awarded a prize if it is not ready for judging and promptly brought into the show ring when the lot is called.

**3.14 Premium money**

Cash premiums awarded will be paid by check made out to the competitive exhibitor and mailed to the post office address as stated on the entry blank. Competitive exhibitors may forfeit all premium money if exhibits are removed from the grounds prior to the official time of release. The board of managers reserves the right to make reductions in premiums if the financial conditions of the Society make such reductions necessary.

**Submission of entry indicates an agreement to abide by all conditions and rules listed below:**

## **IAFE (INTERNATIONAL ASSOCIATION OF FAIRS AND EXPOSITIONS) NATIONAL CODE OF SHOW RING ETHICS**

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE Code of Show Ring Ethics", fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine examples. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

**The following is a list of guidelines for all exhibitors and all livestock in competitive events:**

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership, and age of all animals entered. Misrepresentation of ownership, age or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event.

If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved, and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise.

At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications, for the sole purpose of protecting the health of the animal, shall be administered by a licensed veterinarian. \*The Minnesota State Fair allows exceptions in breeding classes for sound management practices such as mastitis or pneumonia control.

5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant or similar substance) which could affect the animal's performance or alter its natural contour, conformation or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance or other similar practices are not acceptable and are prohibited.

## 10 2011 Minnesota State Fair - August 25 through Labor Day

---

7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
8. No owner, exhibitor, fitter, trainer or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics, or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in, or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of the Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary actions taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including *Fairs and Expositions* and any special notices to members.
11. The act of entering an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and also in violation of federal, state or provincial statutes, regulations or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

### The Minnesota Youth Beef Experience Program (MYBEP)

The Minnesota Youth Beef Experience Program (MYBEP) will award ten heifers this year. Any youth aged 12 to 16 who is a 4-H or FFA member may enter (previous winners of MYBEP heifers are ineligible to participate). The entry deadline is September 19, 2011. Each winner is responsible for raising, breeding and maintaining complete records on care of the animal while providing monthly progress reports to the original owner and the Minnesota Beef Expo.

Failure to adequately follow these requirements during the course of the year when it is owned in partnership may cause the program participant to forfeit their ownership of the animal. In 2010 we received over 50 entries for the sixth year of the Minnesota Youth Beef Experience Program and awarded 11 heifers to deserving youth. This overwhelming response is a tribute to youth who wish to pursue a future in the beef industry. The purpose of this program is to aid youth in getting a start in the beef cattle business by awarding heifer calves to program participants on the basis of merit, need, future goals, and ability to care for the animal.

  - A. **On-line.** Visit [www.mnstatefair.org](http://www.mnstatefair.org), click on "Competition & Contests", select "Livestock" from the drop-down box. Begin on-line registration to enter and pay (Visa or Mastercard). **NO entries requiring entry fees will be accepted without payment of those fees. On-line registration closes 4:30 p.m. entry closing date.** On-line entries will generate an automatic entry form and W-9 form.
  - B. **Mail.** Entry forms and W-9s must be properly and completely filled out, accompanied by the required fees and postmarked on or before the above closing date. Entries not entered on-line **must** be typed or legibly printed on official entry forms. Entry forms and W-9s may be downloaded from the Minnesota State Fair website at [www.mnstatefair.org](http://www.mnstatefair.org), or contact the Competition office to have them mailed to you. The W-9 form must be filled out in the name of the owner/exhibitor.
  - C. **Entry limits.** When entry limits are reached, an alternate list will be prepared for each class. If at the closing date the entry limit for each class has not been reached, the number of dogs in the other classes will be expanded starting with the lowest class.
    - 1) Limited to 26 dogs total (six in Rookie class, 10 each in Novice Ranch and Pro Ranch classes).
    - 2) Maximum of **two dogs** per handler.
2. **Fees**
  - A. **Entry fee: \$20 per dog.** Limit two dogs per handler.
  - B. **A \$25 service fee will be assessed on any returned check.**
3. **Arrival and departure**
  - A. Arrival between 6-8 a.m. Monday. Drivers must enter Gate 14 and identify themselves as contestants in the stock dog trials competition. Vehicles are parked in lot D. After parking, they should leash their dogs and lead them to the Warner Coliseum for the show.
  - B. If there is a need to drive to the Warner Coliseum to drop off dogs or materials, drivers should do so immediately after entering the gate. After unloading, drivers should exit Gate 10, re-enter Gate 14 and park their vehicle in lot B or C. **Do not park in the lot directly south of the Warner Coliseum: those spots are reserved, and you may be subject to tagging and towing!**
4. While on the grounds, dogs must either be leashed or in crates, except when they are in competition.
  - A. Owners are responsible for cleaning up after their dogs while on the fairgrounds.
  - B. Dogs may **not** be tied and left unattended.
  - C. Secure locker room facilities will be available for dogs following competition so that exhibitors may enjoy the fair.
5. **Premiums** In the event of a tie, the dog with the fastest time will be declared the winner.
 

<b>Rookie</b> (1st-4th).....	\$85	\$75	\$65	\$55		
<b>Novice and Pro Ranch</b> (1st-6th).....	\$100	\$85	\$75	\$65	\$50	\$40
6. **Special awards.** Each champion (Rookie, Novice Ranch and Pro Ranch) will receive a trophy.

1. **Command.** Dogs may be directed by voice or whistle. Handlers may carry only a stockman's cane or show stick.
2. **Object.** The object is to handle sheep quietly, easily and confidently, having control and directing movement without injury of any sort.
3. Reruns are permitted at the judge's decision; judge's decision is final
4. **Gripping or biting.** If a dog bites a sheep in a severe manner, the dog will be disqualified and removed.
5. **Lack of progress.** Judge may terminate the run of any dog for lack of progress of the work assigned. Lack of progress is defined as more than two attempts made at any portion of the course. All points of that obstacle will be lost and the handler will be asked to move on
6. **Scoring.** All three head must go through each obstacle for full points. Final score is calculated on time and points. Each dog will be scored in each phase of work. Rookie, 80 possible points; Novice Ranch, 90 possible points; Pro Ranch, 100 possible points
7. **Unfinished work.** A dog which fails to complete the work in the time allowed shall be allowed the points earned up to the expiration of the time limit set and order of work must follow designated pattern of work.
8. **Classes.** In **Rookie** and **Novice Ranch** classes, the handler shall grasp the end of a rope six feet long, tied to the open end of the gate, and shall confine movements to a limit fixed by the rope. In the **Pro Ranch** class, the handler must remain in the penning circle and grasp the rope while penning to receive full points
  - A. **Class 1 Rookie**

**Six dog limit. Time: 5 minutes.** Dogs may not have been shown at an intermediate level in any herding venue, and handler may not have shown any dog at an advanced level in any herding venue. Dog may not have previously won the rookie Class. Handler may accompany the dog. Course is performed as a fetch, drive or combination. Sheep are set in the arena. Dog must remain at handler's post #2; handler may move closer to the sheep. Dog gathers, performs a fetch around handler's post #1 and proceeds around the barrel, through the drive gates, dog holds the sheep away from the pen, handler proceeds to the pen and pens the sheep in the freestanding pen. Pen will have an extra wing. Handler may not walk through the drive gates. Run ends when the pen gate closes
  - B. **Class 2 Novice Ranch**

**10 dog limit. Time: 7 minutes.** Dogs may not have previously won the Novice Ranch Class. Three head of sheep are released into the arena. Dog remains at handler's post #1; handler may move to post #2. Dog gathers the sheep, fetches or drives the sheep around handler's post #1. Handler may accompany dog and sheep as far as handler line at post #2, dog then performs a drive around the barrel and through the drive gates. Handler may move anywhere along the handler's line at post #2. When sheep pass through the drive gates, the dog holds them at the cone while the handler proceeds to the pen. Run ends when the pen gate closes
  - C. **Class 3 Pro Ranch**

**10 dog limit. Time: 10 minutes.** Three head of sheep are released into the arena. Dog performs an outrun from handler's post #1. Handler must remain at the handler's post. Sheep are turned around post #1 and handler can proceed to the Maltese cross. Handler may choose which side to stand on to complete the Maltese cross, but must remain on that side until the sheep turn at the center; sheep may be turned either direction. Point deduction for any sheep that do not make the turn. Handler remains near the cross while sheep are driven around the barrel and across the arena through the drive panels. The handler may then proceed to the freestanding pen. Handler must remain in penning circle during the pen to earn full pen points. Run ends when the pen gate closes
