

# 2017

## Ninth International Cold-Climate Wine Competition

To encourage greater exploration of wine making styles and techniques using cold-hardy grape cultivars, for the past eight years the Minnesota State Fair has cooperated with the International Cold-Climate Wine Competition sponsored by the Minnesota Grape Growers Association and the University of Minnesota.

The competition will be hosted by those organizations, and the winners will be displayed at the Minnesota State Fair, August 24-September 4, 2017.

For additional information, please contact the Minnesota Grape Growers Association, or log on to the International Cold-Climate Wine Competition website at [mngrapes.org](http://mngrapes.org).
